🔗 Employment Timeline

Lead Engineer at Macquarie Group, Sydney

Feb 2022 - Present

I'm contributing to the solution and architecture of the entitlements platform (on top of GCP), which powers authorisation for electronic banking, mobile banking and consents for open banking - Consumer Data Right (CDR). Below are some of the highlights:

- Created solution for onboarding business banking customers to the new in-house entitlements platform.
- Led the migration of millions of customers and their account level access permissions to the new entitlements platform.
- Improved engineering practices and developer on-boarding process.
- Designed and built solution to manage entitlements from the CRM platform.
- Designed and built solution for CDR consent lifecycle management, consent notifications.
- Conduct code reviews, design and architecture discussions, collaborate across teams and mentor the team.

Principal Engineer at Aegon Life Insurance Company (ALIC), India

Feb 2019 - Dec 2020

I architected and built a cloud native policy administration solution on AWS with a lot of agility in a startup like environment. Below are some of the highlights:

- Designed and built the event-driven cloud native platform from scratch (using SpringBoot 2.X and Spring cloud AWS) which addressed cross-cutting concerns like monitoring, observability, resilience, distributed caching etc.
- Designed and built a multi-tenant policy administration system with B2B insurance sales, which allowed onboarding of e-commerce platforms like PayTM, MobiKwik, Flipkart etc.
- Built various patterns around the business process orchestrator (Camunda) for asynchronous execution which became a Solution Building Block.
- Initiated and facilitated Architecture Review Board.
- Collaborated with the Aegon Europe team on designing and building Knowledge Management System and Conversational engine (Chatbot).
- Collaborated with ThoughtWorks (one of our consulting partners) to improve our engineering practices, processes and customer experience.

🔗 Professional Skills

Microservices:	★★★★☆
Serverless:	★★★★☆
AWS - Solution Architecture:	★★★★☆
Java:	★★★★☆
JavaScript:	★★★★☆

🔗 Achievements

- 5K+ reputation on Stack Overflow
- Annual Team Performance Award (2019-2020)
- Quarterly Team Award (2019)
- Quarterly Individual Performance Award (2018)
- Team Performance Award (2015)

🔗 Education

Master of Computer Applications

Indira Gandhi National Open University

Graduated in June 2016

Bachelors in Computer Applications

Berhampur University

Graduated in June 2010

🔗 Interests

- Playing Cricket
- Travelling & Capturing Landscapes
- Riding bikes
